

Are You a Working Breast Cancer Survivor?

An investigation into working and cognitive function after primary treatment for cancer

In order to participate, you must be:

- 1) A woman who is a breast cancer survivor with one to ten years since primary treatment (surgery, chemotherapy, and/or radiation), whose breast cancer has not spread**
- 2) Currently working full-time**
- 3) Between the ages of 18 and 65**
- 3) Without a history of dementia, brain injury, epilepsy, drug or alcohol abuse, or adult ADHD (prior to cancer diagnosis)**
- 4) Have access to the internet (any connection speed other than dial-up)**

We will ask you to take a short online questionnaire and test of memory, attention, and organization that will require 60 to 75 minutes of your time. The study is 100% online and can be taken from any computer that does not use dial-up connection.

To see if you are eligible for our study, please go to:
